DAKIN'S PURE CARBOLIC ACID SOAP.

Disinfecting, Medicinal, Sanitary;  
Rose Scented.

Contains 20 per cent. Pure Carbolic Acid.  
DAKIN'S CARBOLIC TOILET SOAP.

Contains about 10 per cent. Carbolic Acid.  
Each Tablet stamped with our Name as a guarantee of quality.

(Telephone No. 66.)  
Nos. 22 & 24, QUEEN'S ROAD CENTRAL.

Hongkong, 17th March, 1890.

BY APPOINTMENT.

## A. S. WATSON &amp; CO., LD.

ESTABLISHED A.D. 1841.

MANUFACTURERS OF AERATED WATERS.

OUR AERATED WATER MANUFACTORY is replete with the best Machinery, embodying all the latest improvements in the trade.

The greatest attention has been paid to appliances for ensuring purity in the Water-supply, to secure which we have added a Condenser capable of supplying us with 3,000 gallons of distilled water a day, and are now in a position to compete in quality with the best English Makers. Our Sweet Waters cannot be surpassed anywhere.

The purest ingredients only are used, and the utmost care and cleanliness are exercised in the manufacture throughout.

## LARGE BOMBAY "SODAS"

We continue to supply large bottles at heretofore, *free of Extra Charge*, to those of our Customers who prefer to have them to the ordinary size.

COAST PORT ORDERS, whenever practicable, are despatched by first steamer leaving after receipt of order.

FOR COAST PORTS, Waters are packed and placed on board ship at Hongkong prices, and the full amount allowed for Packages and Empties when received in good order.

Counterfoil Order Books supplied on application.

Our Registered Telegraphic Address is, "DISPENSARY, HONGKONG," and all signed messages addressed thus will receive prompt attention.

The following is a List of Waters always kept ready in Stock:

PURE AERATED WATERS  
SODA WATER  
LEMONADE  
POTASH WATER  
SELTZER WATER

LITHIA WATER  
SARSAPARILLA WATER  
Tonic Water  
GINGER LE  
GINGERADE.

No Credit given for bottles that look dirty, or greasy, or that appear to have been used for any other purpose than that of containing Aerated Water, as such bottles are never used again by us.

A. S. WATSON & CO., LIMITED,  
Hongkong, China, and Manila.

MARRIAGES.

On the 13th instant, at A.B.M. Consulate, Shanghai, and afterwards at Trinity Cathedral, by the Rev. H. C. Hodges, M.A., WILLIAM McDONALD to ALICIA CAMPBELL McCLELLAN.

On the 14th instant, at the Cathedral, Shanghai, by the Rev. H. C. Hodges, M.A., CARL RASMUSSEN to BETTY MARCUSSEN, both of Denmark.

At the Sanitary Board meeting to-morrow the orders of the day will be:

Reports regarding certain recommendations made by the Commission appointed to enquire into the cause of fever prevailing in the western district of Victoria.

Report, by Committee, concerning common lodging-house bye-laws.

Report, by Committee, regarding public laundries.

The popular belief in the sanitary efficacy of red underwear is a clinging superstition, nothing more. Red was in ancient times considered a potent charm against the evil eye. At one time in the sixteenth century, when the civil war was deemed to be especially triumphant in England, there was a boom in red tape which it has never since experienced. Many people to this day believe that a red string worn about the neck is a sure preventive of asthma, measles and mumps. The relic of old faiths are to-day best reserved in the great confessions which obtain in the medical world of red flannel, and a not so widespread belief that the milk of a red cow is better than that of any other cow. As to red flannel, it has the single merit over other colors of the dyeing material used destroys all vestige of animal life in the wool; and that red flannel does not shrink as white flannel does.

to drop his latter character, and go "nap" on Royalty and dear pork.

He said, in the course of conversation, that the leading Chinese had been asked to assist in preparing for the reception, and placards posted inviting all classes to co-operate. But he had always tried to impress the fact that there must be no squeezing or enforced contribution. He did not consider the tax on pork really a squeeze—in the first place it was only about ten cents a pig, not twenty; and in the second

pork was going up, anyhow. Besides, pork was a good deal of a luxury—not everybody could afford it, so it would not affect all the Chinese. He could not say that the Fish Guild was not going to follow suit, but he argued that the increase was only temporary. If rates did not come down to the normal level in a week or two he should take steps to make them, for instance he would deal with the pork piggery by opening fresh stalls, and so breaking the monopoly up, or he would send for the heads of the guild, and talk to them in unmistakable terms.

But this apologetic explanation looks very lame in the face of facts which Mr. MITCHELL-INNES incidentally furnished.

There are a quarter of a million pigs slaughtered here annually, or about seven hundred a day. Ten cents each on that number, paid week after week by the poorest Chinese, amounts to a very considerable sum, and there is really no guarantee that the import will be taken off when the object for which it was put on is accomplished. That end is about as noble as the means—taxing pigs, in order that a royal duke may be paralysed with joss-pidgin, is "good business."

ACCIDENT TO H.M.S. "ALACRITY"

We learn just before going to press that H.M.S. *Alacrity* struck a rock this morning, smashing her stem so seriously that she will have to go into dock to-morrow. We also hear that one of the torpedo-boats of the *Leander* has been seriously injured by collision. Torpedo-boats No. 37 and 38 are also injured. We understand that the latter accidents occurred during the naval evolutions now going on in Tytan Bay.

LOCAL AND GENERAL.

MESSRS. Adamson, Bell & Co., agents for the Canadian-Pacific Line, inform us that the steamship *Abyssinia* left Vancouver for this port, *via* Japan, on the 18th inst., also that the *Stik* ex this steamer was delivered in New York on the 16th inst.

THE public don't seem to be very intensely absorbed in the game of "shove hapenny" as played in Korea. Last night Mr. Chesney Duncan was before the Literary Society at the City Hall with a discourse thereon, as he is peculiarly fitted to do, but only a few members turned up, and the lecture was postponed.

THAT old ruffian Ismail, the ex-Khedive of Egypt, has been getting into hot water. He brought a pretty Irish girl to his harem at Constantinople a year ago, and there was, of course, the devil to pay. All the other girls have now rebelled and the latest Lily of Killarney has fled to the English Embassy.

CHI AYER, whose nimble fingers were taught their cunning during a lengthy career as a professional catcher and tamer of the wild gopher, was before Mr. Robinson, at the Police Court to-day. Chi foolishly tried his pretence hand at the robbing business, and at the expense of a compatriot, in respect to certain jewellery. He was remanded.

It is announced that Mr. R. Vaughan Williams, who was called to the Bar in the year 1864, has for a long time had a large and varied practice, and his appointment was generally anticipated by the profession. He became a Queen's Counsel last year, and was appointed to go the Northern Circuit at the summer assizes as Royal Commissioner, in which capacity he is said to have given great satisfaction.

"An old pilot" and "A Sympathiser" each sends \$1 more for old Mann. The poor old chap is now in a position, probably, to buy a retreat for his very few remaining years in some alms-house at home, and, as he feebly tries to say, is very grateful to all you kind people who subscribed. We reserve our opinion of the host of tuff-hunters who will figure at the Ducal show, and who never sent a cash.

It appears, says an American paper, that there are only about one hundred native-born Americans in the United States Navy. All the rest are Chinese, negroes, Portuguese, Greeks, Caribs, Greeks, Malays, and Patagonians. The one hundred are now lonely, and are about to petition the Secretary of the Navy to give them an occasional week ashore so that they shall not forget how to speak the English language.

At the Sanitary Board meeting to-morrow the orders of the day will be:

Reports regarding certain recommendations made by the Commission appointed to enquire into the cause of fever prevailing in the western district of Victoria.

Report, by Committee, concerning common lodging-house bye-laws.

Report, by Committee, regarding public laundries.

not. The officer had gone away with the idea he would get this.

The Chairman said that was not exactly the case, because he gave Colonel Beaumont distinctly to understand the matter would have to be brought before the Council and the vote submitted.

Mr. Ryle asked if there was not something about payment in the Governor's minute.

The Chairman said there was no amount specifically mentioned, but Colonel Beaumont was to receive something.

The vote was passed.

**THE PURCHASE OF BAXTER HOUSE.**

The Chairman said the next year was for the purchase of Baxter House as a police station, but the correspondence on this subject was somewhat lengthy, and it was most desirable that the members should be placed in possession of full information on the subject. He therefore begged to move that this matter be postponed to a future meeting.

The Committee then adjourned.

#### A. G. GORDON AND COMPANY, LIMITED.

The following is the report for presentation to the shareholders at the first ordinary general meeting to be held at the office of the Company, Praya Central, on Saturday, the 22nd day of March, 1890, at 3 p.m.:

I have now to submit to shareholders the annexed annual statement of accounts of the Company, to 31st December, 1889, showing a profit of \$6,230.25 from which has to be deducted the interim dividend of 5 per cent declared in August last amounting to \$3,218.33 leaving a balance of \$3,011.92 at credit of Working Account. It is proposed to appropriate this amount as follows:—

\$1,138.30 in payment of Preliminary Expenses  
\$ 300.00 for remuneration to Consulting Committee  
leaving \$1,582.62 to be carried forward to new account.

It will be observed that all the shares in the Company, have not been taken up although at the time the Company was floated they were all applied for, some of the applications have been cancelled altogether, as it was found impossible to collect anything from the applicants, but the remainder of the calls will be collected later on with interest from their due date.

The total profit is rather less than in former years, owing to the late rise in value of iron and other material which diminished the returns from contracts then pending and taking this into consideration the result of the year's work may be considered fairly satisfactory.

**CONSULTING COMMITTEE.**

Mr. J. W. Noble having retired, Mr. W. F. McIntosh was invited to fill his place on the Board—in accordance with the Articles of Association, the present members retire but offer themselves for re-election.

**AUDITORS.**

The accounts have been audited by Messrs. L. Downes and A. O. D'Gordian who offer themselves for re-election.

**A. G. GORDON, General Manager.**

Hongkong, 7th March, 1890.

#### H. G. BROWN AND COMPANY, LIMITED.

The following is the report for presentation to the shareholders at the first annual general meeting to be held at the Hongkong Hotel, at noon, on Monday, 31st March, 1890:—

The General Managers beg to submit their Report on the working of the Company's business with a Statement of Accounts for the Year 1889. After paying all charges, preliminary expenses, and interest there remains a net profit of \$3,775.50, which the General Managers and Consulting Committee recommend should be appropriated as follows:—

To a Dividend of \$3.50 per share or 7 per cent. per annum..... \$21,000.00  
To Remuneration to Consulting Committee & General Managers as per Articles of Association..... 3,775.50  
To Depreciation of Vessels & Property..... 8,000.00  
To Carry forward to next Account..... 1,998.10  
\$34,773.60

**PROPERTIES.**

All the Company's properties are in good order and have been well maintained during the year.

The general business of the Company has been of a satisfactory and profitable nature though owing to the incidence of cholera and cattle disease during a portion of the year, which caused some stoppage to the work in the Philippines, extra expense was unavoidably incurred and a consequent diminution in the profits of the Company.

Prospects for the current year are good and the General Managers & Consulting Committee have every hope of a favorable result being shown on the working of this year's business both here and in Manila.

**CONSULTING COMMITTEE.**

Mr. Dalrymple and Mr. Sassoon retire, in accordance with the Articles of Association, but being eligible offer themselves for re-election. The accounts have been audited by Mr. Fullerton Henderson, and his appointment requires confirmation.

**GIBB LIVINGSTON & CO., General Managers.**

I have compared the Accounts with the Books and Vouchers at the Company's office and found them correct.

**F. HENDERSON.**

Hongkong, 20th March, 1890.

#### Scott's Emulsion of Pure Cod Liver Oil with Hypophosphites acts both as food and medicine. It not only gives flesh and strength by virtue of its own nutritious properties, but creates an appetite for food that builds up the wasted body. Read the following:—

"I have given it to consumptive patients and have been delighted with the results obtained. It is pleasant to the taste and can be borne by the most sensitive stomach."—E. A. ROWLAND, M.D., Butter-Knowle, Darlington. Any Chemist can supply it.—A. S. Watson & Co. (Lid.), agents in Hongkong and China.—(Adv.)
